ProClaim Roofing

Description of Loss: Wind

Estimate of Repairs: \$34,603.48

The following is not a contract but a general overview of ProClaim Roofing polices. Please see accompanying formal contract for your signatures.

ProClaim Roofing proposes to furnish all the materials and perform all the labor necessary for the completion of the following scope and estimate of repairs.

This estimate is presented utilizing the Xactimate estimating software customized to reflect the specific scope of work presented in this loss.

The work descriptions in this estimate are maintained by a third party, using a customized pricing database accepted by most insurance carriers, and may not precisely describe the actual work to be completed. It is intended to be used to arrive at the nearest approximate cost of repairs.

To satisfy the needs of the insurance industry, this estimate is written to provide a specific scope of work at a package price. Line items include a description of the work to be done, the unit of measure and quantity needed.

The ARFS8X_MAY23 price list for the Van Buren, AR market was used for some or all of the unit costs. The estimator also may have relied on the use of written or verbal quotes from subcontract labor or suppliers who were deemed capable of completing their respective scopes of work.

Quantities in this estimate are for estimating purposes only and are not guaranteed to be accurate. In some cases, quantities are factored for waste, pattern matching and other circumstances.

Please consider the following:

1. This estimate contains no allowance for the review of ordinance and law.

During the course of work we may find that your home or commercial building has a pre-existing condition that could require upgrades to meet current building standards and codes. This will require us to obtain permits from your local building jurisdiction, which in turn will cause delays to our normal work schedule.

2. Costs which were unknown at this time remain "OPEN".

Prior to work starting it is not possible to tell if some will be restorable or if there is concealed damage. Mechanical trade bids (ie: plumbing, electric & heating and cooling) are often not possible to bid before demolition is complete. "OPEN" items and additional costs addressing concealed damage, CODE upgrades or other necessary work related to the restoration of your damaged property will be presented upon discovery and added to the contract amount.

3. Scope May Change:

Our opinion as to the building damage assumes a specific scope and methodology of repairs. Any deviation in scope, methods or conditions, may have a reciprocal effect on this opinion. If this should occur, we reserve the right to review such changes and modify our opinion accordingly.

The accuracy of the assessment is limited to what we were able to inspect visually. This estimate and scope of work represents our professional opinion to restore the property to pre-loss condition.

4. Change Orders and Credits:

ProClaim Roofing is under no obligation to make any changes, deletions or alterations in the contract document. Upon reasonable request of the Owner, we may make changes, additions or alterations after a **written change order** has been executed. This estimates assumes that the work will be contracted in its entirety. Deletions or additions to the scope of this estimate may result in changes to the pricing within the remaining line items.

Individual line item pricing includes multiple job costed items like: material, labor, soft costs, burden and associated work. Due to administrative costs, work deletions and changes in the scope will result in a partial credit of 80% of listed line item. Some line items cannot be allowed for a credit.

ProClaim Roofing

5. Work Process:

Owner shall make all selections and decisions in an effort to match existing finishes and materials. However, an exact match is not guaranteed due to such factors as discoloration from aging, a difference in dye lots, discontinuation of products and the general difficulty in matching certain finishes, colors and surfaces.

6. Work Schedule:

ProClaim Roofing will make every reasonable attempt to complete the project in a timely manner; however, there is no completion date agreed or a specific time of completion set. Factors that can cause delays in our work schedule can include the discovery of hidden damages, weather, customer specified changes to the scope of work, customer delays in material selections or material upgrade and/or availability. It is impossible to state a definite completion date. However, ProClaim Roofing continues to pledge to make every reasonable effort to complete the project in a timely manner for you.

7. Owner Responsibilities:

Owner understands and agrees that the direction and supervision of all workers, including subcontractors, rests with ProClaim Roofing. Owner agrees not to issue any instruction to or interfere with the workers. Owner is to contact the project coordinator or estimator with any questions or request for additional work not included in the estimate.

Owner agrees not to negotiate for any additional work with workers employed by ProClaim Roofing or its subcontractors. The repair process can be a dusty, dirty job and even with all precautions taken, at times, some dust will accumulate. Please take caution to protect your possessions and bear with us during repairs. In the demolition process, any damaged material will become the property of ProClaim Roofing unless other arrangements are made prior to contract signing.

8. Warranties:

Upon completion of the contract and receipt of final payment, ProClaim Roofing will furnish to Owner a Ten Year Workmanship Warranty. All material warranties are based upon the manufacturer's warranty provisions.

2023 Budget

I respectfully request that the following funds (\$15,614.20) be appropriated in Fund #1000-0603 Historical Preservation Grant Fund. We received a Historical Grant to remove & replace deteriorated windows in the courthouse. (Prioritize which windows need the most work because the Grant will not fix all the windows.) This is a Grant that we have to spend the money, then send it in for reimbursement. The Grant total is \$114,000.00 that will be reimbursed by the Arkansas Historical Preservation Program. We have been reimbursed with \$15,614.20 to pay Crawford Construction for work completed.

Dear Judge Keith:

As you requested, the referenced project was advertised for bids to be opened on June 28, 2023. The funding and Engineer's estimate for the project is:

Total Estimated Funds	State Aid Funds (90%)	County Matching Funds (10%)
350,000.00	\$315,000.00	\$35,000.00

The County Matching Funds shown above are due the Department. We are enclosing a Court Order for that amount for you to execute. Please return an executed copy of the court order and your check (payable to the Arkansas Department of Transportation) to the State Aid Division in the self-addressed envelope provided.

Please keep in mind the actual cost to the County will be subject to the final quantities used to complete the project.

It is the Department's policy to keep the above estimates confidential as bidders may be influenced with the knowledge of this information. We would appreciate you handling this information as confidential as possible.

Please contact this office if you have further questions.

IN THE CRAWFORD COUNTY COURT

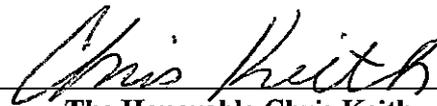

Now on this day comes on for consideration the matter of the State Aid Road described as:

Job SAI773
Hwy. 282 - East (Overlay) (S)
Co. Rd. 19
Crawford County

And it appearing to the Court that this project is submitted to the Arkansas State Aid Road Division for Construction by the contract method and to be financed in part with County and in part with State Funds, as provided by Act 445 of the 1973 Arkansas General Assembly.

It is therefore considered, ordered and adjudged by the Court that this County escrow with the State Treasurer \$35,000.00, which is the amount necessary to provide a total of ten percent (10%) of the estimated funds to construct this project upon plans approved by the Arkansas State Aid Engineer and CRAWFORD County and the County binds itself to bear any additional sum necessary to pay ten percent (10%) of the final construction cost of the project upon completion. The County reserves the right to have the return of unused portion of its escrow upon completion of the project. Should the escrowed County Funds be inadequate for the County's share as herein described, the State Aid Engineer may cause this deficiency to be withheld from the allotment of gasoline tax returnable to the County, commonly called the County Turnback Fund.

CRAWFORD County agrees upon completion of the project to assume the maintenance of the right-of-way by County Forces and/or others including utilities and individuals in accordance with the prevailing State Secondary Road Plan and applicable Federal and Arkansas Department of Transportation regulations.

ProClaim Roofing

Description of Loss: Wind

Estimate of Repairs: \$34,603.48

The following is not a contract but a general overview of ProClaim Roofing polices. Please see accompanying formal contract for your signatures.

ProClaim Roofing proposes to furnish all the materials and perform all the labor necessary for the completion of the following scope and estimate of repairs.

This estimate is presented utilizing the Xactimate estimating software customized to reflect the specific scope of work presented in this loss.

The work descriptions in this estimate are maintained by a third party, using a customized pricing database accepted by most insurance carriers, and may not precisely describe the actual work to be completed. It is intended to be used to arrive at the nearest approximate cost of repairs.

To satisfy the needs of the insurance industry, this estimate is written to provide a specific scope of work at a package price. Line items include a description of the work to be done, the unit of measure and quantity needed.

The ARFS8X_MAY23 price list for the Van Buren, AR market was used for some or all of the unit costs. The estimator also may have relied on the use of written or verbal quotes from subcontract labor or suppliers who were deemed capable of completing their respective scopes of work.

Quantities in this estimate are for **estimating purposes only** and are not guaranteed to be accurate. In some cases, quantities are factored for waste, pattern matching and other circumstances.

Please consider the following:

1. This estimate contains no allowance for the review of ordinance and law.

During the course of work we may find that your home or commercial building has a pre-existing condition that could require upgrades to meet current building standards and codes. This will require us to obtain permits from your local building jurisdiction, which in turn will cause delays to our normal work schedule.

2. Costs which were unknown at this time remain "OPEN".

Prior to work starting it is not possible to tell if some will be restorable or if there is concealed damage. Mechanical trade bids (ie: plumbing, electric & heating and cooling) are often not possible to bid before demolition is complete. "OPEN" items and additional costs addressing concealed damage, CODE upgrades or other necessary work related to the restoration of your damaged property will be presented upon discovery and added to the contract amount.

3. Scope May Change:

Our opinion as to the building damage assumes a specific scope and methodology of repairs. Any deviation in scope, methods or conditions, may have a reciprocal effect on this opinion. If this should occur, we reserve the right to review such changes and modify our opinion accordingly.

The accuracy of the assessment is limited to what we were able to inspect visually. This estimate and scope of work represents our professional opinion to restore the property to pre-loss condition.

4. Change Orders and Credits:

ProClaim Roofing is under no obligation to make any changes, deletions or alterations in the contract document. Upon reasonable request of the Owner, we may make changes, additions or alterations after a **written change order** has been executed. This estimates assumes that the work will be contracted in its entirety. Deletions or additions to the scope of this estimate may result in changes to the pricing within the remaining line items.

Individual line item pricing includes multiple job costed items like: material, labor, soft costs, burden and associated work. Due to administrative costs, work deletions and changes in the scope will result in a partial credit of 80% of listed line item. Some line items cannot be allowed for a credit.

ProClaim Roofing

5. Work Process:

Owner shall make all selections and decisions in an effort to match existing finishes and materials. However, an exact match is not guaranteed due to such factors as discoloration from aging, a difference in dye lots, discontinuation of products and the general difficulty in matching certain finishes, colors and surfaces.

6. Work Schedule:

ProClaim Roofing will make every reasonable attempt to complete the project in a timely manner; however, there is no completion date agreed or a specific time of completion set. Factors that can cause delays in our work schedule can include the discovery of hidden damages, weather, customer specified changes to the scope of work, customer delays in material selections or material upgrade and/or availability. It is impossible to state a definite completion date. However, ProClaim Roofing continues to pledge to make every reasonable effort to complete the project in a timely manner for you.

7. Owner Responsibilities:

Owner understands and agrees that the direction and supervision of all workers, including subcontractors, rests with ProClaim Roofing. Owner agrees not to issue any instruction to or interfere with the workers. Owner is to contact the project coordinator or estimator with any questions or request for additional work not included in the estimate.

Owner agrees not to negotiate for any additional work with workers employed by ProClaim Roofing or its subcontractors.

The repair process can be a dusty, dirty job and even with all precautions taken, at times, some dust will accumulate. Please take caution to protect your possessions and bear with us during repairs. In the demolition process, any damaged material will become the property of ProClaim Roofing unless other arrangements are made prior to contract signing.

8. Warranties:

Upon completion of the contract and receipt of final payment, ProClaim Roofing will furnish to Owner a Ten Year Workmanship Warranty. All material warranties are based upon the manufacturer's warranty provisions.

2023 Budget

I respectfully request that the following funds (\$15,614.20) be appropriated in Fund #1000-0603 Historical Preservation Grant Fund. We received a Historical Grant to remove & replace deteriorated windows in the courthouse. (Prioritize which windows need the most work because the Grant will not fix all the windows.) This is a Grant that we have to spend the money, then send it in for reimbursement. The Grant total is \$114,000.00 that will be reimbursed by the Arkansas Historical Preservation Program. We have been reimbursed with \$15,614.20 to pay Crawford Construction for work completed.

Dear Judge Keith:

As you requested, the referenced project was advertised for bids to be opened on June 28, 2023. The funding and Engineer's estimate for the project is:

Please keep in mind the actual cost to the County will be subject to the final quantities used to complete the project.

IN THE CRAWFORD COUNTY COURT

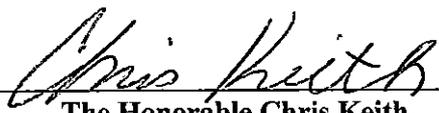

Now on this day comes on for consideration the matter of the State Aid Road described as:

Job SA1773
Hwy. 282 - East (Overlay) (S)
Co. Rd. 19
Crawford County

And it appearing to the Court that this project is submitted to the Arkansas State Aid Road Division for Construction by the contract method and to be financed in part with County and in part with State Funds, as provided by Act 445 of the 1973 Arkansas General Assembly.

It is therefore considered, ordered and adjudged by the Court that this County escrow with the State Treasurer \$35,000.00, which is the amount necessary to provide a total of ten percent (10%) of the estimated funds to construct this project upon plans approved by the Arkansas State Aid Engineer and CRAWFORD County and the County binds itself to bear any additional sum necessary to pay ten percent (10%) of the final construction cost of the project upon completion. The County reserves the right to have the return of unused portion of its escrow upon completion of the project. Should the escrowed County Funds be inadequate for the County's share as herein described, the State Aid Engineer may cause this deficiency to be withheld from the allotment of gasoline tax returnable to the County, commonly called the County Turnback Fund.

CRAWFORD County agrees upon completion of the project to assume the maintenance of the right-of-way by County Forces and/or others including utilities and individuals in accordance with the prevailing State Secondary Road Plan and applicable Federal and Arkansas Department of Transportation regulations.
